

# EXCALIBUR ASSEMBLY INSTRUCTIONS

## Banner stand assembly

Turn the base over and open the pole retainers. Remove the pole from the base. **Important: Close the pole retainers before using the banner stand.**

Set the telescopic pole to the desired graphic height. **Twist clockwise to lock, anti-clockwise to unlock.** Fit the pole into the base.

Lift the top rail to raise the graphic from the base. Lean the banner stand backwards and continue to extend the graphic.

Secure the graphic into position by locating the top rail onto the pole. For double sided banners place the pole doubler onto the pole. Raise both top rails then secure onto the pole doubler. **NB Pole doubler is stored in a pocket inside the carry bag.**

## Graphic attachment - Adhesive rail option

Rotate the rail end cap to expose the plastic adhesive rail insert.

Slide the rail insert from the top rail. Adhere the insert to the front of the graphic.

Slide the rail insert and graphic into the top rail. Close the rail end cap.

**Important: Hold the top rail whilst lowering each banner to prevent damage to the graphic. (do not drop)**

## Graphic attachment - Grippa rail option (ideal for textiles and PVC)

Using the Allen key stored in the base, loosen the top rail screws. Rotate the rail end cap to expose the steel flat bar.

Slide the flat bar from the top rail and remove the backing paper.

Adhere the flat bar to the back of the graphic. Slide the flat bar and graphic into the top rail. Tighten the screws to secure the top rail. Close the rail end cap.

## Graphic attachment - Base

Remove one moulded end cap from the base. Slide the plastic insert from the base.

Adhere the insert to the back of the graphic.

Slide the insert and graphic into the base.

Whilst holding the graphic, remove the locking pin from the base and gently allow the graphic to retract. Re-fit the moulded end cap.

**WARNING: Always attach graphic to base and top rail before removing the locking pin.**

After fitting, the graphic should be left for 24 hours before use to ensure the adhesive bonds sufficiently. Opening the cassette may invalidate the product warranty.
